Re: 5'-Nucleotidase Reporting Change Announced

---

Mayo Medical Laboratories (MML) has announced that beginning March 24<sup>th</sup>, the reference ranges for the 5'-Nucleotidase (8/5NU) will change. The change is due to a change in reagents. The methodology remains the same and there will be no change to CPT code or price.

Current Reference Range: 4.0-11.5 U/L

**New Reference Range: 2.0-8.0 U/L**  
***(Effective. 3/24/2009)***
