Re: Angio-1- Converting Enzyme Reference Value Change

AML has received notice from Mayo Medical Laboratories (MML) that due to a change in reagents, *effective April 21, 2009*, the reference value for Angio-1-Converting Enzyme (14/ACE) will be changing.

Current Reference Value:	0-17 Years	7-46 U/L
	≥18 Years	7-46 U/L
NEW Reference Value:	0-17 Years	8-53 U/L
	≥ 18 Years	8-53 U/L

According to information shared by MML in this notice, the reference interval for children and adolescents may be as much as 50% higher than specimens from adults.
