

## TEST CHANGES IN HAC

**The following new tests have been made orderable in HAC:**

7789/HCQ HCV Antibody with Quantitation

Before ordering an MSO, please always use the HAC "Search" function to make sure that the test is not orderable.

Please refer to your AML Collection Manual, or our online Collection Manual at [www.allina.com/medicallaboratories](http://www.allina.com/medicallaboratories) for specimen collection, processing and transport requirements.

**The following changes have been made in HAC:**

The transport temperature for 16/ADC, Adrenocorticotrophic Hormone, will now default to frozen.

## ADD ON PROCEDURES UPDATED

The AML Horizon Add-On Procedures have been revised. The paperwork for any testing added on after the specimen has left your facility should be faxed to AML in order to expedite the request.

Revised copies of the Add-On Procedures - Adding a Test (Original Order Not Yet Resulted) and Adding a Test (Hyperlink from Result Inquiry Screen) as well as an updated Table of Contents for your HAC User Training and Resource Materials manual have been included with this newsletter. Please review the instructions and if you have any question, or if any of your other procedure dates do not match the dates indicated on the Table of Contents (May 2007), contact your AML Account Representative for assistance.

If you have any questions regarding any of this information, please contact your Allina Medical Laboratories Account Representative:
