Shannon Brunner

DECEMBER

Employee of the Month

Going out of her way to help is something Shannon Brunner is well known for. Shannon is an environmental services aide in the Facilities Services Department. Not only does Shannon do excellent work in the areas of the facility that are designated as “hers” but she also sees things that need to be done throughout the medical center and will do them too. She is a terrific team player and always does whatever it takes to get the job done. Shannon also serves on a Facilities Services planning team that helps plan competencies and activities for employees in the department.

Congratulations, Shannon!

Your excellent work and generous nature are appreciated.
